

WORKSHOPS

AG RIPESS EUROPE – 6 June 2014

State of the Art + Identity and Perimeter of Solidarity Economy in Europe

Since Luxembourg 2009 the state of the art and the perimeter and identity of SSE in Europe have been the object of studies and collective reflection. These two workshops were held in the last general assemblies (Barcelona 2011, Lille 2013). Now in Paris we propose to continue to go into depth in the identification of key contextual elements and identity's articulations of the SSE in Europe. Focusing on the state of the art and identity was a conscious decision in order to add the European context in the Global Vision of RIPESS International. It is a time of great excitement for the SSE in the world. Faced with the threat of neoliberal capitalism, the SSE has been consolidating into a social movement. It is therefore a priority for our young networks to reflect the capacity of civil society to learn from past experiences and adapt to new social and historical paradigms. You are welcomed to join us in this great collective challenge for the next four hours of workshops, which will be structured as follows:
